

RBI Fellowship Student Application Form

Students who have been admitted to one of the four schools participating in the RBI program (School of Chemical and Biomolecular Engineering; School of Materials Science; School of Mechanical Engineering; School of Chemistry and Biochemistry) and who are applying for RBI fellowship funding must file the form below with a faculty member who has been awarded a fellowship. Awards for academic year 2019-2020 will be announced February 25, 2019, on this website. The application should be accompanied by a copy of the original application for admission to the student's home school. The faculty member then forwards the form and application to Dr. Meisha Shofner, Interim Executive Director – Renewable Bioproducts Institute. A PSE minor is required for RBI Fellowship funding, and may also be pursued independent of such funding.

Student Statement of Interest

Each student candidate should address each question with a one- or two-paragraph response.

- How is your project relevant to the forest products industry? Please frame your response in context of the Alliance for Pulp & Paper Technology Innovation Forest Products Industry roadmaps, 2016, summarized [here](#).
- How will your results impact the forest products industry, e.g. in terms of products, processes, sustainability and environmental impact?
- How will involvement in the PSE program shape your career objectives?
